## EDUCATION

---

**Rutgers Coding Bootcamp**, Full Stack Web Development  
Rutgers University - Somerset, NJ

2016 - 2017

**Computer Science**, Bachelor of Arts (B.A.)  
Rutgers University - New Brunswick, NJ

2013 - 2017

## APPLICATIONS BUILT

---

### BlackJack Casino Game

**Technologies:** React.js, Redux, MongoDB, Node.js, Mongoose

- A mobile-compatible web application in which a player must sign up to enter the BlackJack Room. Once a player enters the room, the player accumulates points based on winning/losing each hand
- <https://react-blackjack-app.herokuapp.com/>
- <https://github.com/patrickloughrey/React-Blackjack>

### New York Times API

**Technologies:** NY Times API, JavaScript, AJAX, Bootstrap

- A web application using the New York Times Web API that allows the user to search for official New York Times articles based on a user-specified search term and user-specified date range
- <https://secret-headland-66932.herokuapp.com/>
- <https://github.com/patrickloughrey/New-York-Times>

### Amazon Storefront

**NPM Packages:** MySQL, Inquirer, CLI-Table

- A back-end application that simulates an Amazon storefront in the command-line. The SQL database inventory is updated and the price is computed when an item is purchased
- <https://github.com/patrickloughrey/Amazon-MySQL>

## TECHNICAL SKILLS

- 
- **Back End:** Node.js, Express, Sequelize, MySQL, GitHub, Git, MongoDB, NPM
  - **Front End:** React.js, HTML, CSS, jQuery, JavaScript, Handlebars.js, Web API's, AJAX
  - **Computer Science:** Java, C, Cache Design, x86 Assembly, Algorithm Efficiency, Discrete Structures, Data Structures

## RELEVANT EXPERIENCE

---

### iOS Technician

2015 - 2017

Apple Inc. - Freehold, NJ

- Diagnosed and solved hardware & software complications with Apple iOS devices
- Implemented new technologies and software improvements that increased team productivity

### Cyber Crime Intern

Summer 2014

Monmouth County Prosecutor's Office - Freehold, NJ
